

CCIE R&S Executive Online Program

CCBOOTCAMP® is pleased to offer our world-renowned CCIE® course in a new, exciting and flexible format. Our CCIE R&S Executive Online Program consists of twelve (12) weeks of instructor-led online interactive training with one of our Cisco® certified industry experts. This new program format is designed to assist students in obtaining their CCIE certification over a prolonged, flexible, yet structured period of time without having to be away from work/life commitments for multiple weeks at a time, all at a reasonable price.

Pre-Requisites

- Must have already passed the CCIE Routing and Switching Written Exam.
- Must be able to schedule and attempt the CCIE Routing and Switching Lab Exam within one to two weeks following the commencement of the CCIE Routing and Switching Executive Online Program.

Course Summary

The CCBOOTCAMP CCIE Routing and Switching Executive Online Program is offered exclusively to candidates who desire to obtain their CCIE certification, but who do not have a block of time available to attend one or more CCIE lab boot camps to prepare to attempt the lab exam. Our Executive CCIE Program is custom designed to encompass all aspects of preparation for taking the practical lab exam in a revolutionary new “executive” format designed for those with challenging or unique work/life time constraints. This program is limited to a maximum of ten (10) students per class.

Course Description

The CCIE Routing and Switching Executive Online Program format will include, at a minimum, two live lecture sessions per week for twelve consecutive weeks. The weekly lecture sessions are Wednesday, 3:30 PM to 6:30 PM (Pacific Time) and Sunday, 3:30 PM to 6:30 PM (Pacific Time).

Rack access will be available to each student from 12:00 PM (Noon) until 12:00 AM (Pacific Time) for weekday classes, and from 6:00 AM until 6:00 PM (Pacific Time) during the weekend portion. Students will be given homework after each class meeting and required to complete their assigned tasks before the commencement of the following class session.

CCBOOTCAMP conducts all Executive CCIE course sessions remotely using our online classroom with the exception of one weekend, during which students are invited to visit CCBOOTCAMP's world class facility in Las Vegas, Nevada for a series of instructor-led mock lab sessions. On-site attendance is recommended, but not required, for the mock lab sessions.

The CCIE Routing and Switching Executive Online Program covers all content normally offered in the following boot camps:

- CCIE Foundation Boot Camp (CIERS1)
- CCIE Advanced Lab Boot Camp
- CCIE Mock Lab Boot Camp (CIERS2)

The price for this twelve week program is \$14,995 or 150 Cisco Learning Credits. This includes:

- Two (2) extra rack sessions per week to complete homework assignments.
- Rack access during online class sessions.
- Over sixty (60) hours of total lecture.
- Over five-hundred (500) hours of total rack access time (including online class session time).
- Two days of on-site training at CCBOOTCAMP's Las Vegas, Nevada facility.
- One-on-one instructor assistance.
- Access to a dedicated forum for Q&A with the instructor outside of normal class hours.
- Access to an online classroom during class hours.
- Two weeks access of recorded online classroom lectures (all classroom lectures will be recorded).
- All workbooks, practice labs, and other materials that will be used for this class.
- Financing is available for this program.
