

## CCNA/CCNP Combination Boot Camp Package

CCBOOTCAMP® is pleased to offer the official authorized Cisco CCNA® and CCNP® courses in an attractively priced combination package. Our CCNA Boot Camp contains five days of training from our Cisco® certified industry experts to prepare you for the CCNA exam. As part of this combination course, once you pass your CCNA exam, you will be able to enroll in our CCNP Boot Camp for an additional twelve days of intense training preparing you for the CCNP exam. This combination course is designed to assist students in obtaining both the CCNA and CCNP certifications for one unbelievably low price.

### Step One – CCNA Boot Camp

#### Pre-Requisites

- The CCNA candidate must possess a thorough understanding of network fundamentals including OSI model, TCP/IP Protocol, and basic Cisco hardware familiarity. Net+ and/or an MCP are suggested, though not required.
- Existing Internetworking knowledge.

This official authorized Cisco course is offered by CCBOOTCAMP, a Cisco Learning Solutions Partner®, and is designed specifically to prepare students for the CCNA Exam. The CCNA (Cisco Certified Network Associate) certification validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks, including implementation and verification of connections to remote sites in a WAN. This new curriculum includes basic mitigation of security threats, introduction to wireless networking concepts and terminology, and performance-based skills. This new curriculum also includes (but is not limited to) the use of these protocols: IP, Enhanced Interior Gateway Routing Protocol (EIGRP), Serial Line Interface Protocol Frame Relay, Routing Information Protocol Version 2 (RIPv2), VLANs, Ethernet, and access control lists (ACLs).

### Step Two – CCNP Boot Camp

#### Pre-Requisites

- Valid CCNA Certification.

This official authorized Cisco course is offered by CCBOOTCAMP, a Cisco Learning Solutions Partner, and is designed specifically to prepare students for all four CCNP Exams. The CCNP (Cisco Certified Network Professional) certification validates the ability to install, configure and troubleshoot converged local and wide area networks with 100 to 500 or more nodes. Network professionals who achieve the CCNP have demonstrated the knowledge and skills required to manage the routers and switches that form the network core, as well as edge applications which integrate voice, wireless, and security into the network.

#### Who Should Attend

This combination is designed for those who desire to obtain their CCNA certification and who intend to further their career by eventually obtaining their CCNP certification. By purchasing our CCNA/CCNP boot camp combination package, you lock in a price that is considerably less than signing up for the two courses individually. Plus, you gain the additional benefit of advance preparation and having a clear plan mapped out for attempting the CCNP certification process.

#### CCNA/CCNP Course Description

- CCBOOTCAMP offers its students the choice of on-site or remote boot camp. Choose the option which best suites your needs. Attend a boot camp at one of our facilities or attend the boot camp remotely.
- CCNA class length is five consecutive days, and runs Monday through Friday, typically from 9:00 AM to 5:00 PM. CCNP class length is twelve consecutive days, and runs Monday through the following Friday, typically from 9:00 AM to 8:00 PM. In addition to classroom time, there will be daily homework assignments to be completed at night. These are very full days, so students should arrive at our facility rested and prepared to work.
- CCNA class will have a maximum of twelve students. CCNP will have a maximum of ten students.
- Each student receives dedicated instructor mentoring to ensure all concepts are completely understood.
- CCBOOTCAMP courseware and hardware are updated to reflect the current content of the CCNA or CCNP Exams.
- We offer the most advanced equipment in the industry. You get your own equipment to work with. No gear sharing!
- Access is provided to the classroom racks 24 hours a day.
- We are a VUE testing center, so you take your exams at our facility.
- Free access to [www.routerie.com](http://www.routerie.com), one of CCBOOTCAMP's technical discussion forums.
- Free practice questions and one test attempt is included for CCNA (a \$250 value)! For CCNP, four test attempts are included (one attempt per exam – a \$600 value)!
