

CCNA/CCSP Combination Boot Camp Package

CCBOOTCAMP® is pleased to offer the official authorized Cisco CCNA® and CCSP® courses in an attractively priced combination package. Our CCNA Boot Camp contains five days of training from our Cisco® certified industry experts to prepare you for the CCNA exam. As part of this combination course, once you pass your CCNA exam, you will be able to enroll in our CCSP Boot Camp for an additional twelve days of intense training preparing you for the CCSP exam. This combination course is designed to assist students in obtaining both the CCNA and CCSP certifications for one unbelievably low price.

Step One – CCNA Boot Camp

Pre-Requisites

- The CCNA candidate must possess a thorough understanding of network fundamentals including OSI model, TCP/IP Protocol, and basic Cisco hardware familiarity. Net+ and/or an MCP are suggested, though not required.
- Existing Internetworking knowledge.

This official authorized Cisco course is offered by CCBOOTCAMP, a Cisco Learning Solutions Partner®, and is designed specifically to prepare students for the CCNA Exam. The CCNA (Cisco Certified Network Associate) certification validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks, including implementation and verification of connections to remote sites in a WAN. This new curriculum includes basic mitigation of security threats, introduction to wireless networking concepts and terminology, and performance-based skills. This new curriculum also includes (but is not limited to) the use of these protocols: IP, Enhanced Interior Gateway Routing Protocol (EIGRP), Serial Line Interface Protocol Frame Relay, Routing Information Protocol Version 2 (RIPv2), VLANs, Ethernet, and access control lists (ACLs).

Step Two – CCSP Boot Camp

Pre-Requisites

- Basic Cisco Security knowledge and/or experience.
- Valid CCNA Certification.
- Valid CCNA Security Certification.

This official authorized Cisco course is offered by CCBOOTCAMP, a Cisco Learning Solutions Partner, and is designed specifically to prepare students for all four CCSP Exams. Cisco Certified Security Professional (CCSP®) validates advanced knowledge and skills required to secure Cisco networks. With a CCSP certification, a network professional demonstrates the skills required to secure and manage network infrastructures to protect productivity, mitigate threats, and reduce costs. The CCSP curriculum emphasizes Cisco Router IOS (ISR) and Catalyst Switch security features, Adaptive Security Appliance (ASA), secure VPN connectivity, Intrusion Prevention Systems (IPS), Cisco Security Agent (CSA), Security Enterprise and Device Management, Network Admission Control (NAC) as well as techniques to optimize these technologies in a single, integrated network security solution. In addition, CCSP leverages the new CCNA Security certification as a prerequisite.

Who Should Attend

This combination is designed for those who desire to obtain their CCNA certification and who intend to further their career by eventually obtaining their CCSP certification. By purchasing our CCNA/CCSP boot camp combination package, you lock in a price that is considerably less than signing up for the two courses individually. Plus, you gain the additional benefit of advance preparation and having a clear plan mapped out for attempting the CCSP certification process.

CCNA/CCSP Course Description

- CCBOOTCAMP offers its students the choice of on-site or remote boot camp. Choose the option which best suites your needs. Attend a boot camp at one of our facilities or attend the boot camp remotely.
- CCNA class length is five consecutive days, and runs Monday through Friday, typically from 9:00 AM to 5:00 PM. CCSP class length is twelve consecutive days, and runs Monday through the following Friday, typically from 9:00 AM to 8:00 PM. In addition to classroom time, there will be daily homework assignments to be completed at night. These are very full days, so students should arrive at our facility rested and prepared to work.
- CCNA class will have a maximum of twelve students. CCSP will have a maximum of ten students.
- Each student receives dedicated instructor mentoring to ensure all concepts are completely understood.
- CCBOOTCAMP courseware and hardware are updated to reflect the current content of the CCNA or CCSP Exams.
- We offer the most advanced equipment in the industry. You get your own equipment to work with. No gear sharing!
- Access is provided to the classroom racks 24 hours a day.
- We are a VUE testing center, so you take your exams at our facility.
- Free access to www.routerie.com and www.securityie.com, two of CCBOOTCAMP's technical discussion forums.
- Free practice questions and one test attempt is included for CCNA (a \$250 value)! For CCSP, four test attempts are included (one attempt per exam – a \$600 value)!
