

CCIE® Routing and Switching Four Steps To Success Program

CCIE® Routing and Switching Four Steps To Success Program (\$7,495.00 Total)

Network Learning, Inc. has launched our new **Four Steps To Success CCIE® Routing and Switching Program**. First, the program begins with a set of twelve detailed Routing and Switching specific electronic books on NAT, Advanced Security Hardening, IOS Encryption, GRE tunnels, Catalyst 3550, Frame-Relay, OSPF, RIP, Multicast, BGP, EIGRP and Routing Redistribution. Second, you attend our new 5-day CCIE® Routing and Switching Instructor Led Written Boot Camp. After you pass your CCIE® Routing and Switching Written Exam at our facility, it is time to begin your lab exam preparation. You will take home six Routing and Switching Lab Workbooks; five of the labs contain current material and Network Learning Inc.'s CCIE® IPV6 Lab Guide. We include 20 sessions of rack time on our advanced Routing and Switching racks for you to practice lab configurations. The fourth and final step in your preparation is our 5-day CCIE® Routing and Switching Instructor Led Lab Boot Camp.

For a limited time, **Network Learning, Inc.'s Four Steps to Success Package** is only \$7,495.00, which includes:

1. Twelve detailed Routing and Switching Specific eBooks (PDFs) and CCIE® Routing and Switching Written Book
2. CCIE® Routing and Switching Written Boot Camp
3. CCIE® Routing and Switching 30 Practice Labs (6 Lab Workbooks) and 20 Rack Sessions
4. CCIE® Routing and Switching Lab Boot Camp

CCIE® Routing and Switching Topic Focused eBooks

Network Learning, Inc. has twelve detailed Routing and Switching specific electronic books on NAT, Advanced Security Hardening, IOS Encryption, GRE tunnels, Catalyst 3550, Frame-Relay, OSPF, RIP, Multicast, BGP, EIGRP and Routing Redistribution.

CCIE® Routing and Switching 5-Day Written Boot Camp

This official Cisco® course is offered by Network Learning, Inc. (a Cisco® Learning Partner) and is designed specifically to prepare students to pass the CCIE® Routing and Switching Written Exam. We include pre-class study material (our highly sought 2006 CCIE® Routing and Switching Written Study Guide in eBook format).

CCIE® Routing and Switching 5-Day Lab Boot Camp

This official Cisco® course is offered by Network Learning, Inc. (a Cisco® Learning Partner) and is designed specifically to prepare students to pass the CCIE® Routing and Switching Lab Exam. All our CCIE® Routing and Switching equipment racks are running brand new Cisco® 2811 routers with 12.4T IOS. We have spared no expense to offer each student their own fully loaded technologically advanced up to date rack.

CCIE® Routing and Switching Virtual Racks

Network Learning, Inc. has eight fully loaded CCIE® Routing and Switching/Security/Service Provider racks with PIX 515s, VPN 3005 Concentrators, IDS Sensors, ACS/CA Servers, Cisco® 2811 routers running 12.4T, and Catalyst 3550 switches! Our equipment is the latest and greatest!

CCIE® Routing and Switching Lab Workbooks

Network Learning, Inc. has six complete lab workbooks. Each workbook has five labs and includes complete step-by-step walk-throughs and explanations.
