

CCIE® Security Four Steps To Success Program

CCIE® Security Four Steps To Success Program (\$7,495.00 Total)

Network Learning, Inc. has launched our new **Four Steps To Success CCIE® Security Program**. First, the program begins with a set of twelve detailed Security specific electronic books. Second, you attend our new 5-day CCIE® Security Instructor Led Written Boot Camp. After you pass your CCIE® Security Written Exam at our facility, it is time to begin your lab exam preparation. You will take home a Security Lab Workbook which includes five labs containing current material and Network Learning's CCIE® IPV6 Lab Guide. We include 20 sessions of rack time on our advanced Security racks to practice lab configurations. The fourth and final step in your preparation is our 5-day CCIE® Security Instructor Led Lab Boot Camp.

For a limited time, **Network Learning, Inc.'s Four Steps to Success Package** is only \$7,495.00, which includes:

1. Twelve detailed Security Specific eBooks (PDFs) and CCIE® Security Written Book
2. CCIE® Security Written Boot Camp
3. CCIE® Security 5 Practice Labs and 20 Rack Sessions
4. CCIE® Security Lab Boot Camp

CCIE® Security Topic Focused eBooks

Network Learning, Inc. has twelve detailed Security specific electronic books.

CCIE® Security 5-Day Written Boot Camp

This official Cisco® course is offered by Network Learning, Inc. (a Cisco® Learning Partner) and is designed specifically to prepare students to pass the CCIE® Security Written Exam. We include pre-class study material (our 2006 CCIE® Security Written Study Guide in eBook format when available).

CCIE® Security 5-Day Lab Boot Camp

This official Cisco® course is offered by Network Learning, Inc. (a Cisco® Learning Partner) and is designed specifically to prepare students to pass the CCIE® Security Lab Exam. All our CCIE® Security equipment racks are running brand new Cisco® 2811 routers with 12.4T IOS. We have spared no expense to offer each student their own fully loaded technologically advanced up to date rack.

CCIE® Security Virtual Racks

Network Learning, Inc. has eight fully loaded CCIE® Security/Routing and Switching/Service Provider racks each with PIX 515s, VPN 3005 Concentrators, IDS Sensors, ACS/CA Servers, Cisco® 2811 routers running 12.4T, and Catalyst 3550 switches! Our equipment is the latest and greatest!

CCIE® Security Lab Workbooks

Network Learning, Inc. has one Security Lab Workbook. The workbook has five labs and includes complete step-by-step walkthroughs and explanations.
